## Background

A Las Vegas resident for the past eight years, Carolyn Schneider started writing about her uncle, Bing Crosby, after relocating from California. Her books and articles about the well-known celebrity have brought her closer to Bing's fans and others who have enjoyed the crooners performances during his long career.

Carolyn's mother was Bing's sister, a relationship which allowed this speaker and author to personally know the man that was loved by millions.

With the goal of promoting Crosby's legacy and music, Carolyn often appears as a guest speaker for various clubs, along with a book signing of her work. The author also has given numerous radio interviews for the BBC and Canadian Radio, as well as KNPR and KDWN locally. She has traveled to Leeds, England and Spokane, Washington to take part in tributes to her famous uncle.
